

4 sided H-frame Compactainer® - customisable roll cage

The Compactainer® is a nesting Roll Cage designed to reduce manual operations, improve ergonomics and space efficiency.

This 4-sided unit eliminates the need for shrink-wrapping and reduces product damages.

It also enables you to reduce space requirements in outlets and storage rooms. The footprint of the Roll Cage is also calculated to maximize both transport cubic efficiency and warehouse space for buffering.

Equipped with gravity latches and dogbone retainers for the base and fixed shelf it is easy and safe to use.

Designed for following uses and industries:

Key benefits

- ✓ No shrink wrap or foil needed to secure goods
- ✓ Space efficient roll container
- ✓ One person handling: easily nestable for storage
- ✓ No lifting: Best in class ergonomics
- ✓ Designed for easy maintenance
- ✓ high resistance to damage
- ✓ Reduce manual handling
- ✓ 2-way forklift entry
