

Beverage Tray – minimised manual handling for 0,5 l bottles

A new approach to meet the needs of bottlers and retailers alike, Beverage Tray offers optimum product visibility for both single bottles and multi-pack solutions.

Trays minimize manual handling – no more expensive shelving of bottles in the shop! As the tray is a shelf in itself, it stands for One Touch Merchandising from the bottler to the shop and reduces waste in the process.

Compatible with K. Hartwall dollies and pallets, Beverage Trays have secure locking grips between the tray and bottles for a safe transport with no wrap-around.

Technical specifications

Tray 24 x 0.5 L – PET Ø 65,5 mm

Primary bottle type	PET
Bottle diameter	65,5 mm
