

Dairy Dolly – combining merchandising with logistics

Requiring no manual handling from the dairy producer to the store, Dairy Dolly significantly reduces labour costs in your supply chain.

It can be rolled directly into the store for display to maximise the supply chain efficiency and in-store display value. It can also carry multiple types of crates for milk and other dairy products.

A multipurpose and cost-efficient load carrier, Dairy Dolly can be placed in secondary venues in the store if needed. Note that Dairy Dolly comes into its own especially in semi-automated environments.

Technical specifications

External dimensions	685 x 435 x 165 mm
Internal dimensions	655 x 405 x 23 mm
Weight	9 kg
Surface treatment	Zinc electro-plated + dip-lacquered
Maximum working load	250 kg
Transportation in a 45' container/trailer	1470 units
Stacking height	134 mm
Handling space between wheels	262 mm
Wheel diameter	100 mm
Wheel type	2 fixed, 2 swiveling

Designed for following uses and industries:

Key benefits

- ✓ Ready-to-sell unit
- ✓ Universal display – can be used for various crate sizes and types
- ✓ Easy and safe to handle
- ✓ Easy to wash and maintain
