

HPD System® foldable cages – meeting the highest hygienic requirements

Developed for the needs of food industry, the HPD System® foldable cage is developed to meet the highest hygienic requirements.

The mesh construction means excellent product visibility in the warehouse and makes it easy to clean as well.

Designed for low total cost of ownership, the HPD System® foldable cages have a high cubic fill and is ready for automation.

Like with all K. Hartwall folding cages, HPD System® foldable cage enables efficient return logistics is durable, ergonomic and safe in use.

Technical specifications

| | |
|----------------------|----------------------|
| External dim. size I | 1216 x 806 x 1165 mm |
|----------------------|----------------------|

| | |
|----------------------|---------------------|
| Internal dim. size I | 1150 x 756 x 995 mm |
|----------------------|---------------------|

| | |
|-----------------------|----------------------|
| External dim. size II | 1216 x 806 x 1285 mm |
|-----------------------|----------------------|

| | |
|-----------------------|----------------------|
| Internal dim. size II | 1150 x 756 x 1115 mm |
|-----------------------|----------------------|

| | |
|------------------|--------------------|
| Unit tare weight | 46 (I) /48 (II) kg |
|------------------|--------------------|

| | |
|-------------------|--------|
| Safe working load | 450 kg |
|-------------------|--------|

| | |
|-------------------------------|----|
| Loaded units / 13,6 m trailer | 64 |
|-------------------------------|----|

| | |
|-------------------------------|-----|
| Nested units / 13,6 m trailer | 288 |
|-------------------------------|-----|

| | |
|----------------------------------|--|
| Stacking height transport/loaded | 2 units (max 1500 kg load on the lowest container) |
|----------------------------------|--|

| | |
|--------------------------------|--|
| Stacking height storage/loaded | 4 units (max 1500 kg load on the lowest container) |
|--------------------------------|--|

| | |
|-----------------------------|----------|
| Max. stacking height/nested | 18 units |
|-----------------------------|----------|

| | |
|--------|--------------------|
| Finish | Hot dip galvanised |
|--------|--------------------|

Designed for following uses and industries:

Key benefits

- ✓ Meets the highest hygienic standards
- ✓ Low maintenance costs
- ✓ 1:4 folding ratio saves up to 70% space in the warehouse and in return logistics
