

Security Compactainer® to transport safely valuable goods

The Compactainer® is a nesting roll container designed to reduce manual operations, improve ergonomics and space efficiency.

This nestable cart equipped with a fixed shelf and a tight mesh has been specially designed for the transport of valuable and heavy bulk products. Its tight mesh design makes it the perfect anti-theft unit.

Equipped with gravity latches and "dogbone" retainers for the base and fixed shelf it is easy and safe to use. It also have a split front gate for safe loading and unloading.

Designed for following uses and industries:

Key benefits

- ✓ Split front gate for safe loading/unloading
- ✓ Equipped with a fixed shelf for optimal cubic fill
- ✓ Ergonomic and easy to handle due to its lightweight construction
- ✓ Space-efficient in return logistics
- ✓ Strong unit for heavy duty use
- ✓ Good product visibility
- ✓ Designed for easy maintenance and high resistance to damage
- ✓ Eco-friendly: eliminate the need for shrink wrap
