

# Smartcube® – foldable, stackable and 60% more space efficient

The Smartcube® can boost space efficiency by lowering drastically the amount of air transported.

Its solid construction keeps the transported goods safe & sound and eliminates the need for shrink wrap - a fact that lowers costs and enhances product visibility.

Most stillages have only half drop-down gates but the SmartCube® has also opening gates on one side, which enables loading from both sides.

The Smartcube® is extremely durable and requires very little repair or maintenance.

Our different SmartCube® models (Standard, Jumbo, Standing items) are compatible with each other

## Designed for following uses and industries:

## Key benefits

- ✓ No loose parts
- ✓ No shrink wrap
- ✓ Access from both sides for easy loading
- ✓ Takes seconds to put in operational mode
- ✓ Fully stackable when folded or assembled
- ✓ Very low total cost of ownership

## Technical specifications

External dimensions	1224 x 817 x 1210 mm
Internal dimensions	1102 x 695 x 985 mm
Unit tare weight	72 kg
Safe working load	1000 kg
Loaded units / 13,5m trailer	64
Stacked units / 13,5m trailer	192
Stacking height - empty	397 mm
Max stacking (empty)	12 high
Max stacking (loaded)	4 high (3 on 1)
Finish	Zinc electroplate and lacquer
