

Smartcube® Jumbo – for long and odd-size items

Mixable with your existing fleet, the Smartcube® Jumbo is designed for long and odd-size items.

It keeps the transported goods safe and sound – no shrink wrap is needed for protection, a fact that lowers costs and enhances product visibility.

Like with all K.Hartwall foldable cages, the Smartcube® is efficient in return logistics as well as durable, ergonomic and safe in use.

Our different SmartCube® models (Standard, Jumbo, Standing items) are compatible with each other.

Designed for following uses and industries:

Key benefits

- ✓ Reduce product damage
- ✓ No loose parts
- ✓ Access from both sides
- ✓ Easy to assemble and fold
- ✓ Good product visibility
- ✓ Fully stackable when folded or assembled
- ✓ Very low total cost of ownership
